

ENEE324-03 Spring 2019. Problem set 1

Date due February 7, 2019

All problems are from the Textbook.

Some of these problems ask to modify computer programs available on the homepage of the book, referenced from the course page. You may modify their program or write your own program. The goal of these questions is to simulate random events and draw experimental conclusions.

Ch.1, pp.12-16, Problems 1, 2, 10, 16

p. 35-39, Problems 4, 14, 18
